

SolidCAM Startup Programme

Empowering Innovators

Are you a Startup building a physical product and striving to bring your vision to market?

The SolidCAM Startup Programme provides cutting-edge CAM solutions and expert support at an affordable price, tailored specifically for Startups.

WHY JOIN THE PROGRAMME?

Exclusive Discounts:

- Year 1: 80% off
- Year 2: 60% off
- Year 3: 40% off

Tailored Support:

Access expert guidance and advanced manufacturing tools designed to accelerate your development process.

OEM CAD Options:

If you don't have CAD software, we can provide OEM software at full price, or you can explore similar programmes from other providers.

WHO QUALIFIES?

Eligible companies must:

- ✓ Design and build a physical product.
- ✓ Be less than 5 years old.
- ✓ Have less than \$1 million in yearly revenue.

This program is not open to:

- ⊗ Current SolidCAM customers
- ⊗ Service providers, engineering/design firms, consultants, contract manufacturers, or researchers
- ⊗ Spin-off companies

HOW TO APPLY:

1. **Contact SolidCAM UK Ltd:** Tel: 01226 241744 | Email: info@solidcamuk.com
2. **Submit Your Application:** SolidCAM UK will guide you through the process, ensuring all eligibility criteria are met.
3. **Approval:** Applications are reviewed and approved by SolidCAM Ltd.

The Future of CAM

THE CAM FOR SOLIDWORKS

SolidCAM, including the revolutionary iMachining, is seamlessly integrated in SOLIDWORKS, with full toolpath associativity to the SOLIDWORKS model. With the single window integration in SOLIDWORKS, all machining operations can be defined, calculated and verified without leaving the parametric SOLIDWORKS assembly environment.

All 2D and 3D geometries used for machining are fully associative to the SOLIDWORKS design model. If you make any changes to your SOLIDWORKS model, all of your CAM operations will be automatically updated.

Major Benefits of Using SolidCAM in SOLIDWORKS:

- **SOLIDWORKS Look & Feel** through seamless single-window integration
- **Full Associativity:** Toolpaths auto-update when model changes
- **SolidCAM's SOLIDWORKS Gold Partner since 2003.**
- **Works in the SOLIDWORKS assembly mode** to define Fixtures, Tooling & Vices
- **SolidCAM + SOLIDWORKS is scalable** with packages for all CNC machine types and applications

SolidCAM is the Complete, 'Best-in-Class' CAM Suite for Profitable CNC-Programming in SOLIDWORKS, supporting all CNC-Technologies:

- iMachining 2D & 3D
- Multi-Channel Mill-Turn
- Swiss Machining
- Additive Manufacturing
- 2.5D Milling
- 3D High Speed Machining
- High Speed Surface Machining
- Multi-Sided Indexial Milling
- Simultaneous 5-Axis Milling
- Turning
- Wire EDM
- Solid Probe
